

THE PAPER-FACED FOAM BOARD FAMILY

- **Fome-Cor® Board** has been the industry's leading paper-faced foam board for more than 40+ years. It is comprised of extruded polystyrene foam with clay-coated white or black paper facers.
- **Fome-Cor® ValuBoard™** is comprised of extruded polystyrene foam with natural kraft facers.
- **Fome-Cor® Acid-Free** is comprised of extruded polystyrene foam with acid-free paper facers that meet Library of Congress standards for conservation framing.
- **Fome-Cor® Self-Adhesive** is comprised of extruded polystyrene foam with clay-coated paper facers, one of which is covered with pressure sensitive adhesive. Simply peel back the release facer as you position the graphic on the sticky surface.
- **Fome-Cor® Heat-Activated** is comprised of extruded polystyrene foam with clay-coated paper facers, one of which is covered with heat-activated adhesive.
- **Fome-Cor® JetMount®** is comprised of denser extruded polystyrene foam with clay-coated paper facers.
- **Foam-X® Recovery** is comprised of "memory retaining" polystyrene foam with clay-coated paper facers.

WHY CHOOSE FOME-COR?

- The original graphic arts foam board with a great reputation for performance
- Perfect for die cutting with a compressed edge that stays closed
- Quick service on cut-to-size orders including large sheets up to 8'x10'
- Uniquely embossable for 3-D effect displays
- Cuts easily and cleanly, even by hand
- Extremely lightweight
- Well-suited for screen printing or digital printing applications

WHY CHOOSE FOME-COR VALUBOARD?

- A cost-effective alternative to corrugated cardboard
- Provides a smooth surface for mounting with no flute marks

WHY CHOOSE FOME-COR ACID-FREE?

- Perfect for the archival preservation of valuable art and photographs
- No additional backing is required, saving time and framing materials

WHY CHOOSE FOME-COR SELF-ADHESIVE?

- Eliminates the use of pressure-sensitive adhesive stock
- Available in repositionable Low-Tack (LT) or immediate bonding High-Tack (HT)
- HT identified by red release facer and LT identified by blue release facer

WHY CHOOSE FOME-COR HEAT-ACTIVATED?

- Eliminates the use of hot melt tissue stock
- The adhesive is activated with low temperature settings for a quick, damage-free mount
- Can be used on a heated mechanical or vacuum dry mount press, or with a heated roller laminator

Fome-Cor Board

Self-Adhesive

ValuBoard

Heat-Activated

Acid-Free

JetMount

Foam-X Recovery

Its reputation for depth is legendary.

FOME-COR® BOARD
VALUBOARD™
ACID-FREE
SELF-ADHESIVE
HEAT-ACTIVATED
JETMOUNT®
FOAM-X® RECOVERY

WHY CHOOSE FOME-COR JETMOUNT?

- The denser foam core provides increased rigidity and warp resistance
- Great for more demanding mounting jobs such as display, signage and framing

WHY CHOOSE FOAM-X RECOVERY?

- Memory core is more resistant to denting
- Edges remain open when die cut
- Economical alternative to competitive foam boards
